## End of the Year 2013

Author: Jeannette Capodifoglia

2013 is soon going to end and here I find myself, reading many postings of friends, family and clients on Facebook. Since the beginning of december many of you are announcing Christmas "special offers" for promoting their services, others are making a review of their year, others are simply sharing private stories. I loved all of them, thank you! Well, this made me think about what I want to share with the world - but most important: what I want to share with YOU.

First of all, let me say THANK YOU from the bottom of my heart! For having shared beautiful moments, pictures, mantras, articles and videos with me on Facebook. You nourished my soul and my heart, filled me up. Furthermore, I want to make use of this newsletter also saying thank you to all the people - to all the seekers of love, light and truth - who joined my events, my talks and workshops, as well as my Mahatma Energy Channel Training, throughout Germany, Italy and Switzerland. Namasté!!! I feel so blessed living my vocation! And last but not least: I am so thankful for all the people coming into my life this year and making me the richest woman ever. GRAZIE!!!

Now, let me pass you on the message, I received from my friends of the source: my guide(s), the „M a h a t m a Energy(ies)“:

"Beloved ones, it is time for us to share with you the big moment to come. It is thus the light coming over you, the light that overcomes the fear. It is the most magnificent light we have ever seen and shone on you, beloved souls. We are ready now to pour it on you. Be open to receive it. Be open to receive our and the source its love. We love you. We are one. You are us. WE ARE."

The Mahatma Energy(ies) through Jeannette Capodifoglia, December 9th, 2013

This final salutation "We are" tells us in what direction we are going to dive in, in what kind of consciousness we are going to step into. We are not anymore in the "I am" Energy or Consciousness, no, we are already moving into the "WE ARE" Frequency. But, what does this in fact mean? Well, it means, that we are overcoming the feeling of being an individual, being one with the source. Instead, we are starting to realize and to feel, - becoming aware - that as

individuals, are all connected with each others. As a result of that, this connection becomes now the: WE ARE all ONE. WE ARE becoming aware of a new consciousness inside and outside of us is growing. Do you feel the difference in these words, in this message, in this new consciousness? Our world needs a WE ARE Energy and Consciousness right now. The I AM Consciousness has been misunderstood from many souls in these last days. The source wants to

transform this now, through letting the WE ARE Consciousness descend on us.

## feminine and masculine union

sacred ceremony

A further message I received from my guide(s) was, that in the year 2014 the fusion of the masculine and the feminine Energy will take place. This will bring the healing we were looking and lacking for so long. This will be the fundament of becoming one with all there is and living and all of that coming out from the heart. It will be of course an individual work but as well a work done in groups. Healing we will do and experience all over the world.

This is why I have received a new task from my guide(s), namely to guide people on this path of healing the sacred divine feminine and masculine Energy.

With paying special attention on supporting and coaching couples on their way to their spiritual union. Which will take place next Fall 2014, during a mass ceremony, that I will conduct, supported by various radiant souls assisting me, for whom I am deeply grateful! Couples will receive blessings from the source in an absolute unique surrounding. Whether they will renew their vows or receiving the source's blessings for the first time, we

will all support them on their way to becoming spiritual spouses <3

In order to being able to propose a concrete ceremony package, as well as other offers of how to work with me next year, including new seminar contents and dates and much more, I retire during these holidays so to have time to concentrate on my next years work getting prepared.

That's why I am sending you already now my best wishes of a sacred christmas holiday and a blessed start into the year of the sacred union 2014.

I am so happy and deeply grateful for all of you being in my life, wheter as friends, family or clients - it doesn't matter, cause I feel: WE ARE ALL ONE.

Blessed be

yours sincerely
